The new road just north of Moscow on the Somerville and Moscow road has been completed and the old road has been closed from use. The new road leads west from the old one just on top of the hill near the Gwynn place and runs almost a direct line to the north end of the levee across North Fork bottom. A first class road bed has been built that distance, cutting out entirely the road thru the marshy stretch near the negro church at the foot of the hill, and passing over high ground all the way to the end of the levee. The levee across the bottom has been raised and widened and this should always be a better travel from Moscow to the county seat hereafter. The right of way for the new road was generously given by J. A. Winfrey who owns the Pulliam lands thru which it passes.

It took the finest varieties of Turkish and Domestic tobaccos to do it—and the highest order of skill in blending them. Yes, the Chesterfield blend is a secret. It can't be copied.
